

# Final Report

Reported Date [REDACTED]

## Patient Information

First Name: [REDACTED] Middle Initial: [REDACTED]  
Last Name: [REDACTED] Date of Birth: [REDACTED]  
Gender: Female Ordering Doctor: Michael J Bauer, MD

## Sample Information

Test Ordered: Babesia Broad Coverage Ab Assay Sample ID: BB-[REDACTED]  
Sample Type: Dried Blood Spot Collection Date: 08/27/2024

## Test Results

Test	Result	Reference Range	Comments
Babesia Broad Coverage Ab Assay	Negative	Negative	

### Other information:

The Babesia Broad Coverage Antibody Assay is a qualitative test designed to detect the presence of human IgM and IgG antibodies against Babesia group-specific antigens. This test is intended for clinical use following suspected exposure to Babesia pathogens. Results should be interpreted alongside the patient's clinical symptoms and medical history by a licensed healthcare provider.
